

# QUALITY POLICY STATEMENT

---

The committed policy of Eastland Compounding is to manufacture rubber compounds **RIGHT FIRST TIME.**

Every time we fail to achieve this goal the reasons for not right first time are analysed we will thereby create a powerful tool to drive our desire to improve.

To implement the policy of zero defects we will:

Commit to comply with the requirements of quality standards and customer requirements and to continually improve the effectiveness of the quality management system.

Provide a framework to establish and review quality objectives.

This policy has been communicated to all employees so they understand the aims of the business.

This policy will be reviewed annually.

**K. O'Brien**
