

QUALITY POLICY STATEMENT

Eastland Compounding is a manufacturer of custom rubber compounds for automotive and non-automotive products.

Eastland Compounding staff are dedicated to the principle of continual improvement to product quality and service excellence and is committed to supplying high quality products and services that conform to customer requirements.

To meet our objectives, we have implemented quality systems to satisfy the recognised international standards of ISO and IATF. We will do this in a safe and ethical manner meeting all applicable governing body's requirements such as antibribery, ethics, modern slavery, REACH, and other applicable requirements determined by the needs and expectations of interested internal & external parties.

Our Quality Management System provides a platform to promote a risk-based approach to strategic thinking, the management of opportunities and mitigation of identified risk.

The committed policy of Eastland Compounding is to manufacture rubber compounds **RIGHT FIRST TIME.**

This policy will be communicated to all employees and as a minimum, when requested by stakeholders and or interested parties.

Senior Management will review this policy and formulate objectives to ensure its integrity, effectiveness, compatibility and alignment with the context and strategic direction of the business.

This policy will be reviewed annually.

K. O'Brien
